VAT Scales Rates in respect of private fuel will increase, from the first VAT Return after 1st May 2009. Details will be included with the next VAT Return issued.

From April 2010 all VAT Returns, for businesses with turnover in excess of £100,000, must be filed and payment made electronically.

RELIEF FOR TRADING LOSSES

Losses incurred by companies for accounting periods ending between 24th November 2008 and 23rd November 2010 and by sole traders/partnerships for tax years 2008/09 and 2009/10 can be carried back and set off against profits in the previous 3 years.

CAPITAL ALLOWANCES

Where plant & machinery and commercial vehicles are purchased between April 2009 and April 2010 the first £50,000 will qualify for 100% first year allowances with any excess qualifying for 40%. From April 2010 the additional 40% allowance will be removed.

The list of energy saving and water efficient assets qualifying for enhanced allowances has been extended. Details will be published later this year at www.eca.gov.uk

Tax allowances for business cars purchased after April 2009 will be calculated by reference to their CO₂ emissions. Those with emissions of up to 110g/km qualify for 100%, between 111g/km and 160g/km 20% and all others 10%.

INCOME SPLITTING

The proposals announced in October 2007, which were to have come in to effect in April 2009, have been deferred. Income splitting is where taxpayers artificially allocate income to a spouse by way of dividends or partnership profits out of line with contribution to the business.
